

What is **BLUE PROGRESS**?

Blue Progress is a water soluble, liquid complementary feed for broiler, designed for the **management** and the **prevention of inflammatory processes**, for **decrease of oxidative stresses** and for **promote skeletal development**.

Blue Progress contains a pool of **natural molecules with a high biological value**, whose modulated absorption allows the achievement of immediate results thanks to the high concentration of its active ingredients.

HOW DOES IT WORK ON?

IT REDUCES
INFLAMMATORY PROCESSES

IT OPTIMIZES SKELETAL
DEVELOPMENT

IT PROTECTS LIVER AND
STIMULATES THE HEPATIC
REGENERATION

IT PREVENTS DAMAGES CAUSED
BY STRESSING EVENTS (transport,
vaccination,
placement ...)

WHAT DOES IT CONTAIN?

- ✓ The *Salix alba* and *Hypericum* natural extract perform anti-inflammatory and antimicrobial activity
- ✓ The *Silimarine* extract contributes to hepatocytes regeneration and improved liver function
- ✓ The *Echinacea* extract prevents the formation of mucus and respiratory congestion
- ✓ *Calcium gluconate* and *Calcium chloride* optimize skeletal development
- ✓ *Vitamin D3* is essential for calcium adsorption
- ✓ *Carnitine* increases energetic supply and has a detoxifying action

PACKAGING

Bottle of 1L

Tank of 10-25L
