

What is **HUNTER MITE P**?

Hunter Mite P is a powder complementary feed for laying hens, designed with high content of essential oils for producing a **repellent effect against arthropods** (*Dermanyssus gallinae*, flies, and others).

Hunter Mite P has a dual action mechanism: a **direct action** thanks to its aromatic components and an **indirect action** due to the metabolism of the animal's product.

HOW DOES IT WORK ON?

WHAT DOES IT CONTAIN?

- ✓ The *natural extracts* are diffused by animals thanks to excrement repulsing (*Dermanyssus gallinae*, flies, and others)
- ✓ Hunter Mite P is **safe** and leaves **no residues** in meat and eggs
