

What is **RUMINATIVO ASSOLUTO**?

Ruminativo Assoluto is a rumen **bolus** specifically developed the **restoration and recovery of the reductions in rumen acts** in dairy cattle.

The blocking or slowing down of rumen function are quite frequent events in the productive career of a high-production cow: it is estimated that about 5-10% of cows can be affected by this metabolic pathology during each single lactation.

HOW DOES IT WORK ON?

IT SUPPORTS INCREASE
OF RUMEN MOTILITY

IT STIMULATES THE
RENEW OF RUMEN
FUNCTIONALITY

IT IMPROVES
PRE-STOMACH ATONY

IT REDUCES FROM
DISLOCATION RISK

WHAT DOES IT CONTAIN?

- ✓ *Saccharomyces cerevisiae* promote the pathogens elimination from the bovine rumen
- ✓ *Vitamin PP* and amino acids have a protective action on the liver
- ✓ *Vitamin C* and *Vitamin E* have an antioxidant action
- ✓ *Beta-glucans* stimulate an increase in the immune system
- ✓ *Maltodextrins* promote modulated availability energy

PACKAGING

Box with 20 Boluses
of 90 g each
