

## What is **SPRINT T-ONE**?

**Sprint T-One** is a powder mineral complementary feed for calves, designed for early **activation of morpho-functional development of digestive system** in young animals.

**Sprint T-One** contains a pool of **natural molecules with a high biological value** which support a rapid formation of rumen absorption surfaces. Its application lets the use of company raw materials into weaning feed production.

## HOW DOES IT WORK ON?

IT PROMOTES THE CORRECT  
DEVELOPMENT OF RUMEN

IT STIMULATES THE IMMUNE  
SYSTEM AND FIGHTS AGAINST  
OXIDATIVE STRESSES

IT FAVORS STRUCTURAL AND  
MUSCLE GROWTHS

## WHAT DOES IT CONTAIN?

- ✓ A *natural technological pool* significantly reduces weaning times
- ✓ *Mannoligosaccharides* and *yeast* reduce rumen presence of antagonist bacteria
- ✓ *Carob* has an intestinal astringent function
- ✓ *Maltodextrins* support a constant available energy
- ✓ *Vitamins, Selenium organic, natural extract Rosmarinus* and *Polyphenols* reduce oxidative stresses

## PACKAGING

Bag of 10-25Kg
